The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 1 and claim 2 recite measurements performed using "a micro compression testing machine" and "a powder tester", respectively. These recitations are seen as rendering the claims indefinite since no industry standard testing protocol or specifically identifiable testing instrument is specified.
